Dear colleague,

The growing research field of abstract argumentation was originated in 1995 by Phan Minh Dung's seminal paper "*On the Acceptability of Arguments and Its Fundamental Role in Nonmonotonic Reasoning, Logic Programming, and n-Person Games*". The paper's profound impact on the development of computational argumentation research and of AI research in general is universally recognized, as also witnessed by it winning the 2018 AIJ Classic Paper Award.

In its **11th volume (2020)**, the *Argument & Computation* journal has published a special double issue to celebrate the 25th anniversary of this fundamental contribution. The aim of the special issue is to provide an up-to-date view of the vitality and richness of Dung's theory. The issue contains 6 papers collected on the basis of an open call for papers and selected on the basis of three peer reviews per paper.

***Pietro Baroni, Francesca Toni and Bart Verheij***

## Table of Contents

### Volume 11, Issue 1-2

All articles are available in  Open Access

#### EDITORIAL

[On the acceptability of arguments and its  
fundamental role in nonmonotonic reasoning, logic](#)

## programming and n-person games: 25 years later

Baroni, Pietro | Toni, Francesca | Verheij, Bart

### RESEARCH ARTICLES

## Abstract argumentation and (optimal) stable marriage problems

Bistarelli, Stefano | Santini, Francesco

## Logical theories and abstract argumentation: A survey of existing works

Besnard, Philippe | Cayrol, Claudette | Lagasquie-Schiex, Marie-Christine

## Similarity notions in bipolar abstract argumentation

Budán, Paola Daniela | Escañuela Gonzalez, Melisa Gisselle | Budán, Maximiliano Celmo David | Martinez, Maria Vanina | Simari, Guillermo Ricardo

## Structural constraints for dynamic operators in abstract argumentation

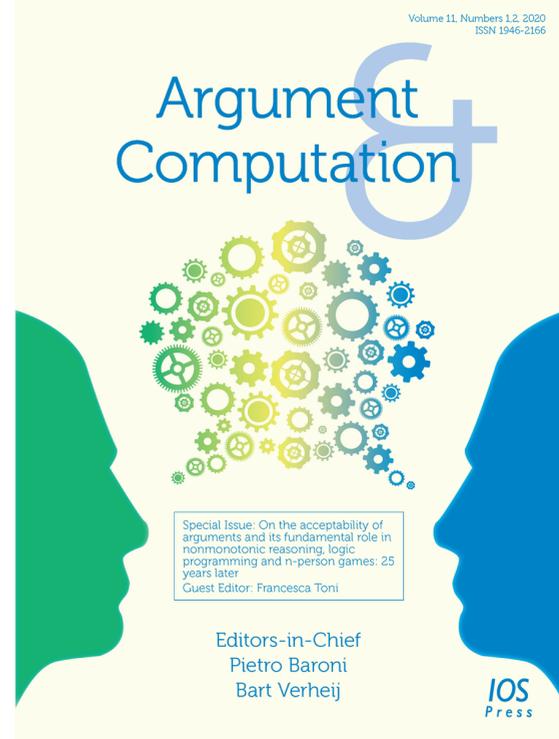

Wallner, Johannes P.

## Investigating subclasses of abstract dialectical frameworks

Diller, Martin | Keshavarzi Zafarghandi, Atefeh | Linsbichler, Thomas | Woltran, Stefan

## Before and after Dung: Argumentation in AI and Law

Bench-Capon, T.J.M.

## Call for Papers

As a member of our research community, we would like to invite you to contribute your own work for publication in the journal. **Argument & Computation** offers contributing authors many benefits, including:

- First class **Editorial Board**
- Rigorous peer review and speedy manuscript processing
